

Spotify Downloader

The fastest and easiest way to download songs and playlists from Spotify to your machine!

The screenshot shows a code editor with the following components:

- EXPLORER:** A file tree on the left showing the project structure, including files like `setup.py`, `README.md`, `ffmpeg.py`, `download.py`, and `__main__.py`.
- EDITOR:** The main window displaying the code for `__main__.py`. The code includes functions for fetching artist tracks, downloading multiple songs, and searching for a specific song. It uses `argparse` for command-line arguments.
- TERMINAL:** A terminal window at the bottom showing the execution of the program. It displays the installation of `PyQt5-sip` and `PyQt5`, followed by the execution of the `spotify-downloader` command. The terminal output shows the program fetching the song "Eve - Kaiikai Kitan" and converting it.

THE CODE

Easy to run and use, watch how the program fetches and downloads the song of your choice!
